Mr. Robert Almon
Mid-States Asphalt
P.O. Drawer 20617
Tuscaloosa, AL 35402

RE: Type IV Mid-States Asphalt

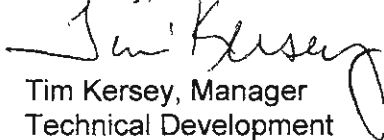

Dear Robert:

I received your letter and copy of the carton marking for Mid-States Asphalt products packaged in El Dorado, AR; thank you. Based on the traceable batch information, and the ability to distinguish El Dorado product from Tuscaloosa product on the carton, we are adding Mid-States Type IV asphalt from El Dorado, AR, to our *Preferred Mopping Asphalt Sources* list.

As a result, Mid-States Type IV asphalt may be used to adhere Siplast SBS membrane systems with a standard 10 year guarantee. An updated bulletin will be distributed internally, and we will forward you a copy for your records.

Should you have questions regarding this matter, please call me.

Sincerely,

Tim Kersey, Manager
Technical Development
